

Kiara Melberg

(708) 541-#### | melberg.k01@mymail.sxu.edu | [Linked-In](#) | [GitHub](#)

PROFESSIONAL SUMMARY:

Detail-oriented Chemistry and Computer Science double major with strong analytical, technical, and problem-solving skills. Experienced in programming, laboratory techniques, data analysis, and scientific documentation.

EDUCATION AND HONORS:

Saint Xavier University, Chicago, Illinois

Bachelor of Science, Chemistry and Computer Science | Minor: Mathematics

GPA: 3.78/4.00 | Expected Graduation December 2026

Honors & Awards: Dean's List of Honors, Rzepa Scholarship, Chartwells Scholarship, Freshman Merit Scholarship

RELEVANT COURSEWORK:

Data Structures & Algorithms, Programming, Software Eng., Web Development, Operating Systems, Discrete Math

RESEARCH EXPERIENCE:

Saint Xavier University

Chicago, IL

Chemistry Capstone Research Project

August 2025 – Present

- Conducting a literature review on how quantum computing can overcome the limitations of classical computational methods in modeling CO₂ conversion.

PROJECTS:

Saint Xavier University

Chicago, IL

Health & Wellness App

January 2026 – Present

- Developed backend logic to store and retrieve user health data (daily logs, progress tracking) using a MySQL database.
- Built RESTful API endpoints in Node.js to connect the mobile frontend in Android Studio with the database.
- Implemented features such as user input logging, data retrieval history, and a community forum.

PROFESSIONAL EXPERIENCE:

Medical Assay Laboratory Inc.

Darien, IL

Medical Laboratory Technician

March 2026 - Present

- Perform laboratory analyses in hematology, chemistry, coagulation, and microbiology according to physician orders.
- Evaluate results for clinical significance, validity and appropriateness.

Saint Xavier University

Chicago, IL

Chemistry Laboratory Assistant

August 2025 – Present

- Prepare reagents and set up equipment for chemistry lab courses.
- Maintain clean, organized, and safe laboratory workspaces.

FUCHS Lubricants Co.

Harvey, IL

Research & Development Tech. Intern

July 2025 – August 2025

- Collected and consolidated technical data on 1,000+ raw materials from SharePoint, OneDrive, SAP, supplier websites, and RMDB into a SharePoint-based library.
- Structured and cleaned data in Excel to create a searchable reference file.
- Built an AI assistant in Microsoft Copilot Studio to leverage the raw material database and improve data accessibility.
- Documented process used to structure and standardize information for team reference and presented project results.

SKILLS:

Tools: MS Office, Excel, SAP ERP, MySQL, AI tools, LabDAQ LIS, Git, Node.js, Express.js, Android Studio, VS Code

Programming/Markup/Query Languages: Java, C++, SQL, HTML, CSS, Kotlin, JavaScript

Laboratory: Chromatography, Spectroscopy, Recrystallization, Distillation, Extraction, Sample Preparation & Handling

Soft: Communication, Organization, Critical Thinking, Problem-Solving, Teamwork, Adaptability, Attention to Detail
